## ABOUT US

We as a company with a rich history in the natural stone sector, we take pride in our commitment to quality and craftsmanship. Our story dates back to 1955 when our Honorary Chairman Hacı Mehmet Sen first entered the industry. His expertise and passion for natural stone laid the foundation of our company's success.

In 1969, our esteemed elder's investment in quarries further solidified our presence in the industry. This investment not only expanded our knowledge in natural stone but also positioned us as a pioneer in this field. With the second generation joining the company, we established our first marble factory in 1987. This marked the beginning of our journey in producing processed stone products for the market.

Today, with more than 17,000 square meters of indoor and 55,000 m2 of outdoor space, our marble factory, equipped with high technology, has the ability to produce a wide range of products to meet our customers' needs. Our state-of-the-art machinery and skilled workforce ensure that every slab we produce meets the highest standards of quality and craftsmanship.

In 2021, we took our commitment to quality a step further by opening Sentaş Slabs Gallery, where we exhibit over 100 carefully selected products to meet our customers' various needs. Our forward-looking approach guides us in stone selection for our gallery, enabling us to offer our customers unique and innovative options.

One of our main strengths lies in our ability to discover and showcase undiscovered stones from our country on the global market. By highlighting the beauty and quality of these unique stones, we not only promote our country's rich natural resources but also contribute to the growth and development of the industry.

We are more than just a natural stone company; we are a testament to craftsmanship, quality, and innovation. With our rich history, advanced technology, and commitment to excellence, we continue to set new standards in the industry and provide our customers around the world with the best natural stone.

## OUR MISSION

To design and produce the natural assets that nature offers for all humanity at the highest standards, and to add unique beauty to our living spaces is our mission.

## OUR VISION

Our vision is to be a memorable world brand in the international market with its product, service quality and people-oriented approach.

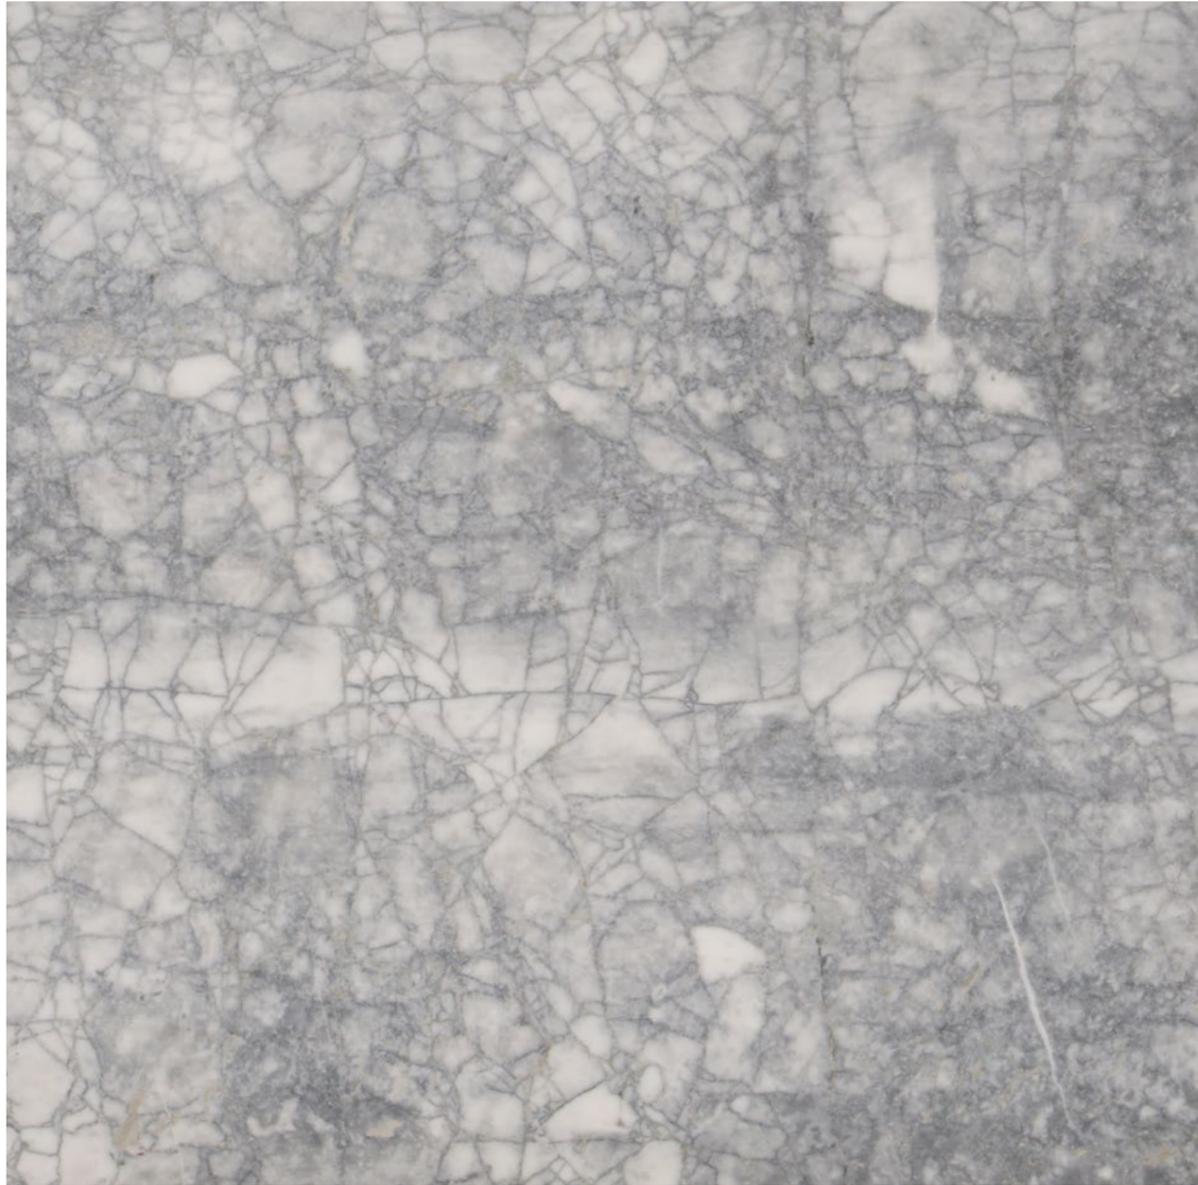

## OUR VALUES

To be an innovative, transparent and respected brand that adheres to ethical and moral values.

Dare to surrender to its beauty  
Grigio Venato, where cool grey tones  
meet the heat of passion. Because  
elegance should never be cold.

Grigio Venato Marble

# GRIGIO VENATO

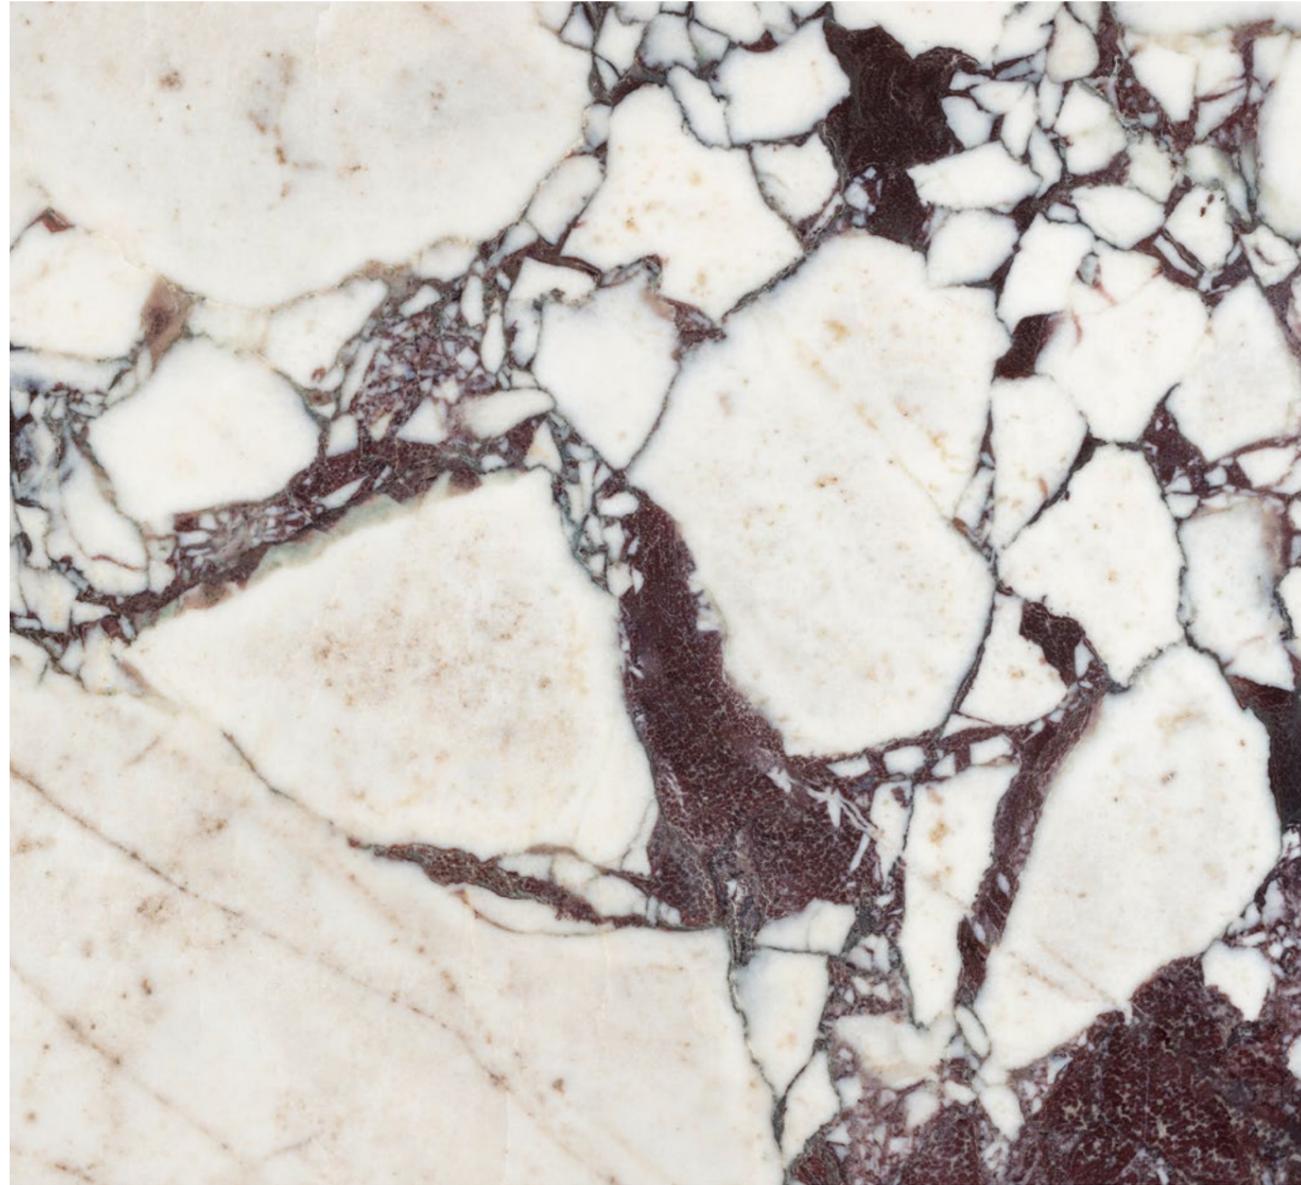

Grigio Venato marble is a natural stone that reflects the unique texture of nature, offering a magnificent blend of gray and white tones. With its intense veins, each piece of this marble tells a different story while providing an elegant and modern aesthetic. Adding a touch of sophistication and contemporary flair to interior spaces, Grigio Venato marble plays a pioneering role in enhancing design projects. Popularly used for flooring, countertops, and wall cladding, this marble type brings depth and character to any space. Meeting the uniqueness of natural stone, Grigio Venato marble elevates every area it adorns, transforming your living spaces into something truly special.

CALACATTA VIOLA  
COLLECTION

# CALACATTA VIOLA EXTRA

Calacatta Viola is a luxurious and eye-catching marble variety. It features striking purple and white veining on a white base, creating a beautiful contrast. Ideal for adding a sophisticated touch to modern interiors.

Calacatta Viola is a rare type of Calacatta marble with a rich history, known for its unique appearance and quality. Traditionally preferred in kitchen and bathroom designs, this marble has maintained its popularity over the years due to its aesthetic appeal and durability. An essential element in high-quality and stylish interior designs, Calacatta Viola offers a timeless look.

## CALACATTA VIOLA

In the past, in the ancient city of Ephesus, Calacatta Viola was used in the columns of the Celsius Library, which serves as an example of how luxurious and magnificent the buildings and monuments in Ephesus were. Ephesus has maintained its importance as a center of art, culture, and architecture throughout history, and therefore, the materials and construction techniques used there have been selected to reflect this characteristic.

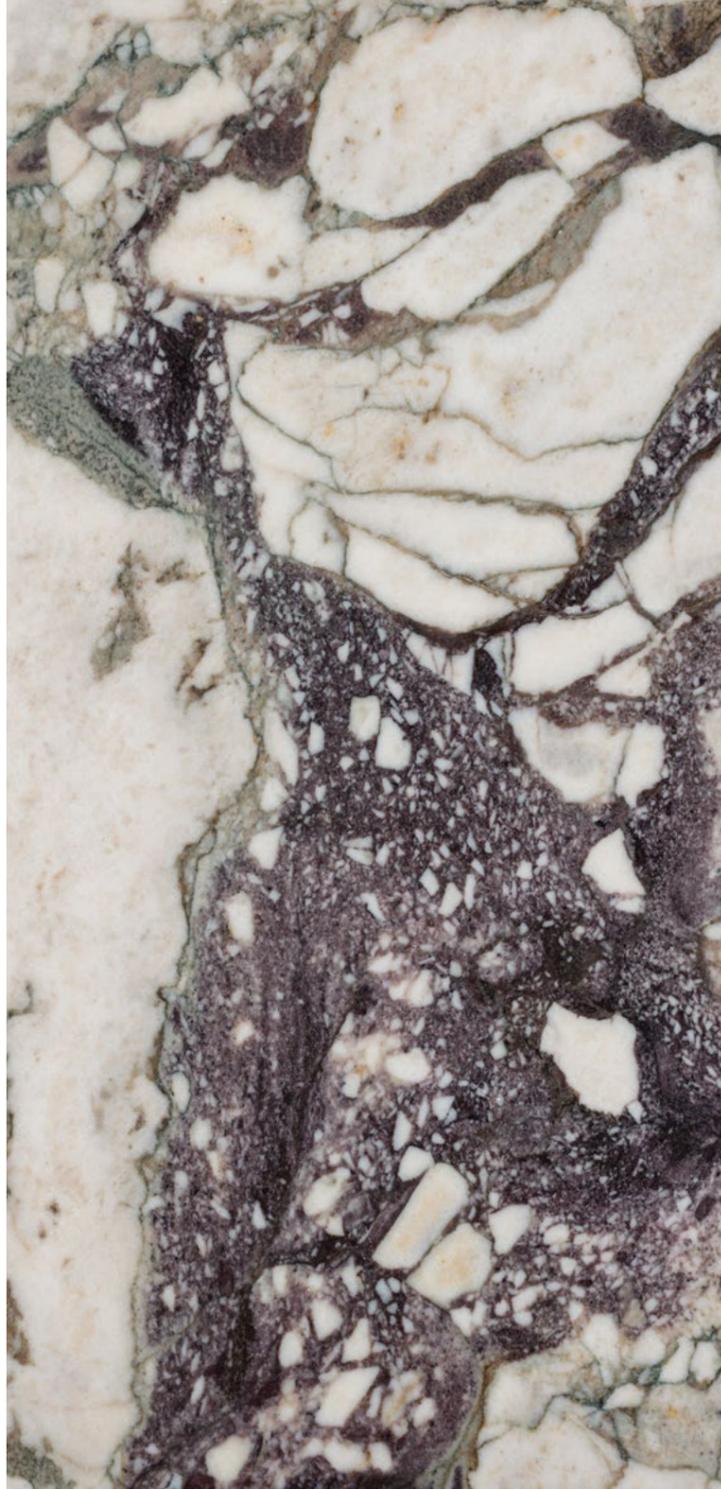

The adornment of Ephesus with such aesthetic materials has allowed the preservation of many artifacts and works of art from ancient times to the present, and for these monuments to be studied with great admiration even today. Materials like Calacatta Viola contribute to the understanding of Ephesus not only as a historical city but also as a center of art and aesthetics.

Today, Calacatta Viola continues to be a preferred material in luxury interior designs, especially in bathroom and kitchen countertops, as well as floor and wall claddings. This marble of extraordinary beauty adds unique elegance to both modern and classical decoration styles, lending spaces an aesthetic appearance.

Izmir - TURKEY

## CALACATTA VIOLA CLASSIC

Calacatta Viola Classic is one of the most valuable and sought-after types of marble in the world. Although it carries the name of the traditional Calacatta marble family, it distinguishes itself with its unique features and color. Calacatta Viola Classic is famous for its dark purple and green veins on a white background. This special color combination offers an elegant and luxurious appearance, creating a unique aesthetic sense in interior design.

Calacatta Viola Classic is typically used in prestigious interior design projects such as kitchen countertops, bathroom sinks, and wall coverings. Its sophisticated color and texture combination are designed to add a modern or classic elegance to any type of living space. It is also chosen to enrich the environments of public and private spaces such as lobbies and reception areas, luxury villas, and hotels.

Owning Calacatta Viola Classic is not just a decorative choice but also an investment. This marble, which increases in value over time, enhances the value of a home or business while maintaining the aesthetic appeal of the space in the long term. Therefore, Calacatta Viola Classic is a material frequently chosen and recommended by interior designers and architects.

In conclusion, Calacatta Viola Classic is considered one of the finest examples of Turkish marble, with its unique color combination, sophisticated appearance, and durability. Whether considering a modern or classic design, this type of marble is the ideal way to add luxury and elegance to any interior design project.

CALACATTA GREEN  
COLLECTION

# CALACATTA GREEN EXTRA

Calacatta Green Extra is a special selection of natural marble stone that is rare and possesses a striking beauty. The uniqueness of this stone is revealed through vibrant green veins spread across a white base. The magnificent harmony of green and white sets Calacatta Green Extra apart from other marble options. This stone not only adds a natural and elegant look to spaces but also creates a modern and luxurious atmosphere. The finely crafted surface and unique patterns of Calacatta Green Extra make each piece stand out like a special work of art. This exquisite marble brings not just a material but also an artistic masterpiece to spaces, creating a captivating aesthetic impact.

## Experience the Timeless Elegance of Calacatta Green

## CALACATTA GREEN CLASSIC

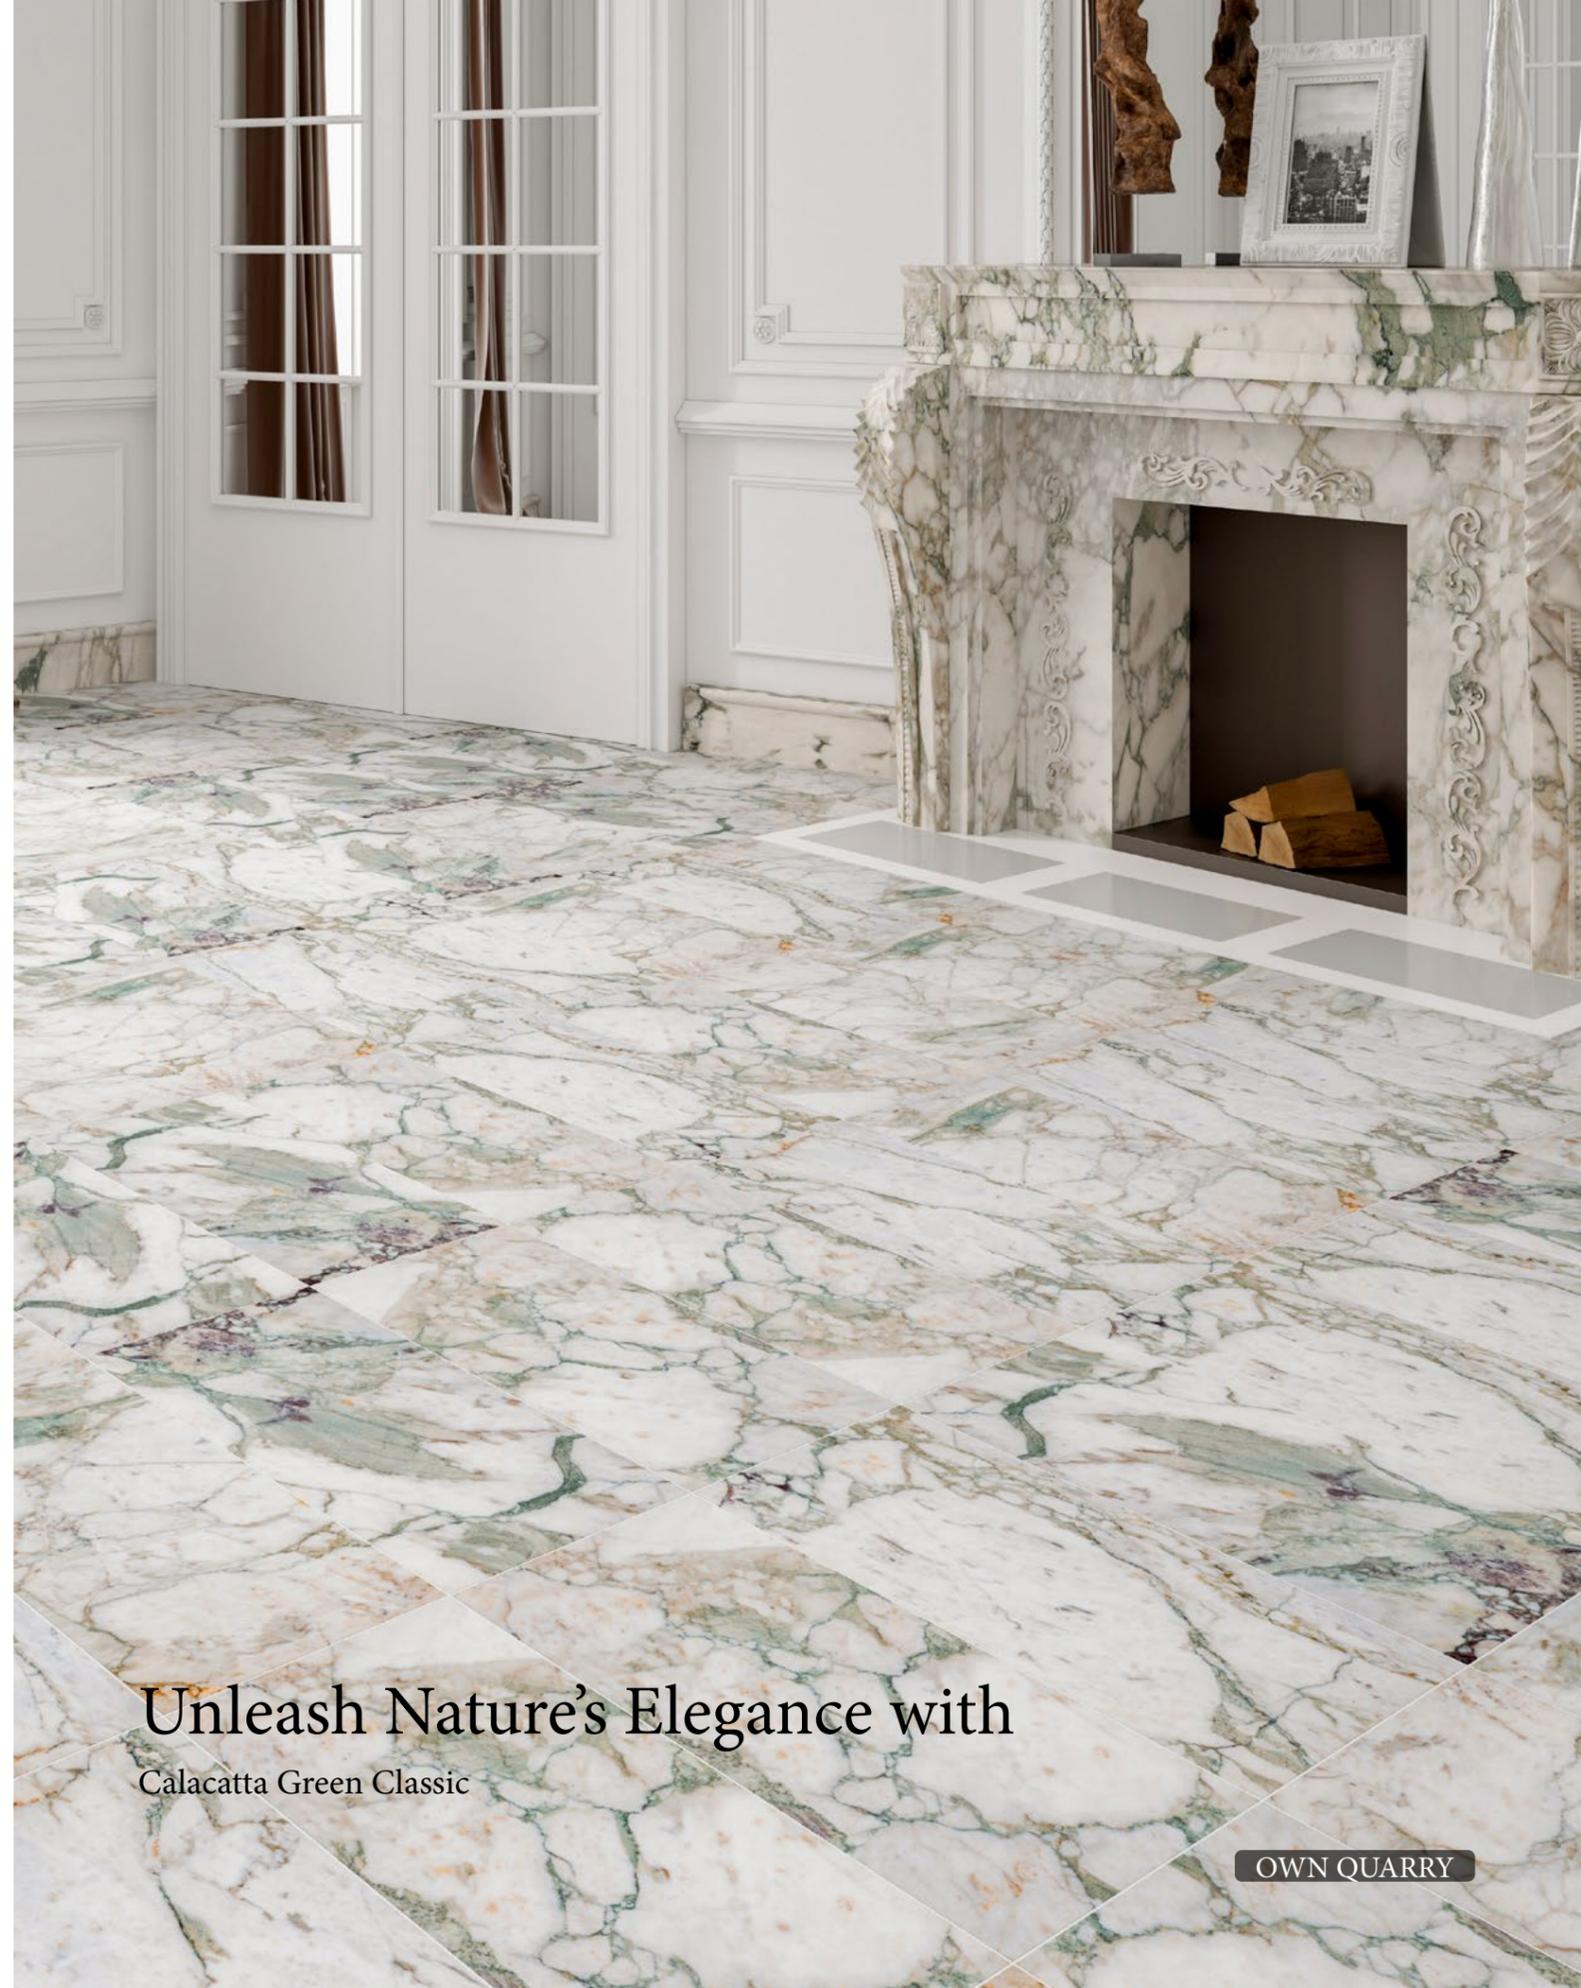

Calacatta Green Classic is a special type of marble that brings the unique beauty and elegance of nature into our homes. This rare stone, extracted from Turkey's rich mineral deposits, is used to add an aesthetic touch to luxury spaces and homes around the world. As its name suggests, Calacatta Green Classic carries the distinctive features of classic Calacatta marble while offering its own unique appeal with its green veins.

The most striking feature of this marble is the appearance of its rich green veins dancing on a white background. This characteristic makes Calacatta Green Classic indispensable for designers and homeowners who want to add a touch of natural elegance and freshness to their spaces. Each marble slab has a unique pattern and color combination, making each usage unique.

Not only for its appearance, but Calacatta Green Classic also stands out for its durability and ease of use. It can be used in various applications such as kitchen countertops, bathroom sinks, wall cladding, and flooring. This type of marble is an ideal choice for any space that wants to offer luxury and natural beauty together.

In short, Calacatta Green Classic is an extraordinary beauty offered by nature. This unique marble combines luxury, aesthetics, and naturalness, adding not just texture but also a story to spaces. Whether the design is modern or classic, Calacatta Green Classic is a perfect choice for those who want to add a noble air to their spaces.
